

CANTINERO

BETTER FOR THE METAPHOR

THE WORDS

C.L.HICKEN

My House

My house better built than your house
It's a very big house
Building it for years or more

My worlds better built than your world
It's a very strong world
One you should be thankful for

Nice, but your place is rather stale
Have you ever thought of giving it a tweak?
You shouldn't have to live your life like this

All your woes will disappear
Come along with me and see the light in
My house

My house better built than your house
It's a very big house
Building it for years or more

The game, the battle of the blame the sane
Are better off they see my big ideas
You shouldn't have to live your life like this

Make a sound and disappear
Get along with me and see the right in
My house

See the happy smiling children
As they cry more & more & more...

My house better built than your house
It's a very big house
Building it for years or more

My worlds better built than your world
It's a very strong world
One we should be thankful for

My house better built than your house
It's a very big house
Building it for years or more

My Worlds better built than your world
It's a very strong world
One we should be grateful for

My House...(repeat)

It never will be broken

Go Getter

Hey there you Sir come along with me
And I will show you how to make a stick of it
Not coming on making out like were going to be
Hanging out with Slobodan Milosevic
If you're fussing on the maybes and unsure about the rights
Tired of the size and the shape of it?
Well there is no place big enough believe the narrative
If you want to be real winner
Singing...

Hey now go-getter
Come my way

Downsize everyone
Look outside there's a plan out there....

Weakness is a failure and anxiety disease
And all of those WMDs
There is no place big enough believe the narrative
If you want to be a real winner
Singing...

Hey now go-getter
Come my way
Hurry up

Got to be strong now
Got to take it for your self
And there is no wrong now
Until you're near the end

Now you're running faster
And you don't know how to stop
Tied to the game and the thrill of it
But your legs are getting shorter
And very soon you're going to be
Hanging out with Slobodan Milosevic
Fussing on the maybes
And forgetting what is right
Now you're a real go-getter
Singing...

Hey now go-getter
Come my way
Hurry up

Safe

Starting to look at the lines on his face
Sloping yet perfectly written
Hides in the lives of his friends on Myspace
Looks like its fine after all

We'll be
Safe
And we'll live in the sun
And everything will be alright
Will be alright

Wrapped in a time when she's in daddies arms
That's the life she wants to live in
No danger or harm should reside in this place
Strong in her faith after all

We'll be
Safe
And we'll live in the sun
And everything will be alright
Will be alright

No snakes at the at the mall
And no tumbles or falls
There'll be no useless feelings
Come come to the blind
Now we're safe

And everything will be alright
Will be alright

Safe
And we'll live in the sun
And everything will be alright
Will be alright

Goodbye Life

Goodbye Life it's a call incidental
I'm making my moves
It's a call fundamental
There's no guarantees
Can bring you to your knees
Can cook you up and bury you
Then cover you with ease

Everyone tries
See the plight of the farmers
Hooking that line
While we're living in Pajamas
Try to make ends meet
There's concrete on my feet
It shakes you up and buries me
And covers you with ease

Believe we'll get to heaven in the end
But I will take you back to where we live
A place we call reality

The lease of life is over with boredom
But the road is ever there
I should have said no
I could have said no
I think I said no
Because you're a lot like my father

Goodbye Life it's a call incidental
I'm making may moves
For the good of the rental

Believe we'll get to heaven in the end
And I will take you back to where we live
A place we call reality

You will never ever no
Goodbye life it's a call incidental

Medicated

Its alright we're medicated
Yes it feels alright we're insulated from life

No one will come near
We'll take an even piece of Jungle
And make it clear
And crime, we'll let it all behind

We're breaking through

Its alright we're medicated
Yes it feels alright we're insulated from life.
All wrapped up and compensated

Hey you, no one answers your pain?
We're here because we do
Just enough to relieve the most of it
To leave the ghosts of it

All that you live
We'll smooth it to a line
Refined all ugly
Will disappear...

Its alright we're medicated

And you, no one answers your pain?
We're here because we do
Just enough to relieve the most of it
To leave the ghosts of it

Its alright we're medicated

Selfish

Living on a substitute
We'll quibble on the cost
If Life is the editing
I think I'm good so far

Well I am selfish
This is the only road I've ever traveled on
Yes I am selfish
You can hear the way I breathe

My Life
I'm bigger now
I'm not resigned
To giving up the flow

Well I am selfish
As this is the only road I've ever traveled on
Say it's all about me
Because I am so selfish
You can here the way I breathe

Look on through me
You don't fool me
Dazed, don't call it love
Put an arrow right on through me
So much better for the metaphor
For seeming young and stupid
So sue me.

Living on a substitute
We'll quibble on the cost
Well I am selfish
Say it's about me
Because I am so selfish
You can here the way I breathe

Look on threw me
Ah, you can't fool me
Dazed, don't call it love
Put an arrow right on through me
So much better for the metaphor
For seeming young and stupid
So sue me

*"Hear the call Its obvious
Who will you trust?
To take care of you*

*When you're older
Who'll be there?
To wave goodbye"*

So much better for the metaphor
For seeming young and stupid
So sue me

Sometimes

Sometimes I think
That all I've done is rubbish
The good times
The straight lines
it all comes apart at the seams

Sometimes my head
Is crazy now
Well you're a sick puppy aren't you
You try yourself to sleep
Don't look before you leap
Nobody said I'd be a passenger
And nobody said that I wouldn't get hurt by you

Confounded by the dream,
A time beyond the haze
Conceive yourself you're free...

Sometimes I think
It's all Just Compromises
I think I get the Joke "*Nostalgia is a trap*"
The rush to anecdote "*As time goes bye*"
Nobody said I'd be a passenger
And nobody said that I wouldn't get hurt by you

But you do
Sometimes

Lights Went Out

The lights went out
You were not at home
There was someone else
Who I barely know
*"Can't go on like this
I found a way this time
Got a life to live
Can't get left behind"*

This is a very nice way to come down

*If you believe in me
This is a very nice way to come done
If you believe if you believe"*

Got an Ice pick mind
And those rosy cheeks
Had a mouth for days
You were much better like this
*"I simply can't go on like this
Need a piece of mind"*

This is a very nice way to come down

*If you believe in me
This is a very nice way to come down
If you believe in me
This is a very Nice
Very nice
Very nice
Very nice
Very nice day to come down
If you believe if you believe"*

The lights went out
And you were not at home

This is a very nice way to come down?

"If you believe in me..."

Thinner

There's a Monkey on your back
And I think It's getting bigger
It's the coolest of them all
Because I think your getting thinner
Yet know one gives a damn

You may call it a disease
But the world is getting meaner
It's in all the magazines
It's enough to make you shiver
And no one gives a damn
But I'm strong enough to

Stop, I am free
The opposite in me
Will fill the time and the space
To take command
She's above it all
You will see her disappear...

In simple terms its clear
The Control will make it easy
So ferocious when you eat
And that's your philosophy
And no one gives a damn
I'm strong enough to

Stop, I am free
The opposite in me
Will fill the time and the space
To take command
She's above it all
You will see her disappear...

"You look amazing, your like, your like a supermodel or something"

And I will
Stop, I am free
The Opposite in me
Will find the time and the space
To take command
She's above it all
You will see her disappear...

There's a monkey on you back
And I think you getting thinner

Long Way Home.

Here in this moment
Buried in Clay
There is an accident coming our way
Tide its been turning
Wash us away

Where is the comfort
When all is unsettled

It's a long Way home
It's a Long Way home

What is this moment
Light when you're dark
There will be symbols
In Histories arc
There is no sense or purpose
Just always afraid

Under this moment I'd swear it is broken

It's a Long Way home
It's a long Way home.

He couldn't help it
He didn't want it
It was beside Him
Was a calling

Couldn't stand it
Understand It
Disappointed

Faith without reason
Discourse is treason

It's a...

Long Way Home
It's a long Way home

Stay In Bed

She exploded
On the scene
Made a great big splash with everyone
She distorted to believe
It doesn't look like much to me
Like I said
She's doing fine now
But this is no place for your mother

Wont you
Settle down
Dig a hole
Stay in bed

"I don't know you, should I want to?"
Sees the meet in all relation-ships
Now- got the sense
"Things will leisurely come my why"
So climb, it's your right now
But this is no place for your mother

Need to

Get around
Move ahead
Get around
Move ahead
Settle down
Dig a hole
Stay in bed

I've heard enough I've seen enough
I can see, tough life
Living off of trust to turn those heads
It will be tight it will be tight
I think you'll come undone

Need to

Get around
Move ahead

Get around
Taking off,
"What was that they said?"
Move along
Hurry up
Settle down
Dig a hole
Stay in bed

Lay down with the money and run
Roll over
Roll over

And rest
Arrest
Arrest
Arrest
Arrest

Stay in bed

Move along
Hurry up
Settle down
Dig a hole
Stay in bed.
Get around
Move ahead
Get around
"What was that they said?"
Move along
Hurry up
Settle down
Dig a hole
Stay in bed

The End
